ANA CAROLINA GOMES

SEO & Digital PR Specialist

Belo Horizonte, Brazil · contato.carolpss@gmail.com · linkedin.com/in/anacpsg · carolinagomes-seo.github.io

SUMMARY

SEO & Digital PR specialist with 3+ years in highly competitive, regulated markets. At Odds Scanner Group I lead multi-market link acquisition and media partnerships, and build data-led PR campaigns for UK national media. I also build AI-assisted SEO workflows with Claude Code and Python, and apply technical SEO, structured data and GEO hands-on in my own portfolio site.

SKILLS

- **Off-Page SEO & Digital PR:** Link Building, Data-led Digital PR, Journalist Research & Outreach, Partner Negotiation, Competitive Backlink Analysis, Content Briefs
- **SEO & GEO:** Technical SEO, On-Page SEO, Keyword Research, Search Intent, E-E-A-T, Schema Markup (JSON-LD), GEO / AEO
- **AI & Automation:** Claude Code, Python (openpyxl), Prompt Engineering, ChatGPT, Gemini, Perplexity
- **Tools:** Ahrefs, Semrush, Google Search Console, Google Analytics, Bing Webmaster Tools, Excel, Git/GitHub

PROFESSIONAL EXPERIENCE

SEO Off-Page Specialist · **Odds Scanner Group** · 07/2024 - Present

- Secure 250-300 high-authority backlinks per quarter across international markets to improve domain authority and organic traffic.
- Reduced the average cost per link by 25% through outreach and partner negotiation.
- Manage 20+ media and affiliate partners, including OneFootball and Gazeta Esportiva, ensuring content quality and strategic alignment.
- Run competitive backlink analysis to identify market gaps and plan targeted outreach.
- Created a reusable research template for odds-led Digital PR and planned 4 UK campaigns, mapping 16 national journalists to exclusive angles and follow-up plans aligned with brand-mention and link goals.
- Develop story angles by comparing odds across 5 bookmakers (best price, implied probability), cross-checked with xG and historical data; verify sources by authority and apply UK gambling compliance (18+, BeGambleAware).
- Flag outdated on-site content found during PR research to the content team.
- Built and piloted an AI-assisted workflow with Claude Code and Python (openpyxl) that turns a spreadsheet into link-building briefs (title, H2/H3 outline, verified sources), keeping exact anchors and target URLs and sending only required data to the LLM.

Junior Off-Page Specialist · **Odds Scanner Group** · 09/2023 - 07/2024

- Executed targeted link-building campaigns to build a high-quality backlink profile and improve rankings.
- Tracked competitor performance to find new link-building opportunities and refine PR strategies.
- Secured brand mentions and high-value placements through ongoing relationships with media partners and journalists.
- Collaborated with major regional publishers to plan and launch Digital PR initiatives.

SEO Intern · **GShield** · 02/2023 - 09/2023

- Wrote SEO-optimized content and technical product descriptions for a high-traffic e-commerce site.
- Ran on-page SEO audits and fixed technical issues affecting crawlability and indexation.
- Monitored algorithm updates and adjusted on-page strategies to maintain organic performance.
- Worked with cross-functional teams to align content strategy with commercial goals.

Marketing Intern · **BrunSker Tecnologia** · 09/2022 - 11/2022

- Helped create advertising materials and run digital marketing campaigns.
- Researched market trends and consumer behavior to support marketing planning.

EDUCATION

CST in Marketing · Universidade Estácio de Sá · 08/2022 - 12/2024

SEO Mastery: From Fundamentals to GenAI and GEO Strategies · Coursera specialization (IBM & SkillUp Online), 2026 · Capstone credential

Mastering Digital PR with Brian Dean · Semrush, 2025 · Credential

Content Optimization Masterclass · Surfer, 2025 · Credential

LANGUAGES

Portuguese (native) | English (C1) | Spanish (A1)

PROJECTS

SEO portfolio site · personal project, 2026

- Built and deployed the site from scratch with Astro, Git and GitHub Pages (automated builds via GitHub Actions), using Claude Code as an AI coding agent driven by written specs.
- Designed the UX for desktop and mobile with a small design system and WCAG AA accessibility (contrast, 44px touch targets, visible focus).
- Implemented technical SEO (canonicals, XML sitemap, robots.txt, image optimization), a connected JSON-LD graph around a single author entity, and GEO practices such as llms.txt and answer capsules; set up Google Search Console and Bing Webmaster Tools.

GreenSip: SEO, GenAI & GEO capstone · Coursera, 2026

- Built a 6-keyword cluster (33.1K monthly searches) and a full on-page plan for a fictional wellness brand.
- Produced an AI-assisted article with human editing on a YMYL topic, made it answer-ready for AI search, and validated BlogPosting and FAQPage schema.
